

General principles

The Swiss International Scientific School in Dubai (SISD) accepts applications from boys and girls as day students from 3 years old up to the age of 18, and as boarding students from the age of 11 (Grade 6) onwards.

SISD welcomes students who are committed to the concept of an international education, whether they are local or international. They must be willing and capable to meet the academic demands of the school, to benefit from the education that is provided and to identify with our School Philosophy.

In order to meet its educational and pastoral obligations, it is vital that the individuals responsible for our students' education are in complete agreement with the school's educational principles and support the school in its efforts. SISD must therefore be in possession of all the necessary information relevant to the personal, academic and physical development of its students.

We encourage all prospective parents to make an appointment to meet the Admissions Team and take the time to visit our school and learn more about our curriculum. We offer personalized as well as weekly school tours and the opportunity to discuss the educational needs of each applicant.

The Admissions Team supports new families through the admission process to make the transition in our school as smooth as possible. All applications are considered individually, taking into consideration the following factors:

- Previous school history
- Language profile and level
- Final goals of the applicant
- Level of maturity
- Age as per KHDA regulations

Inclusive Education

In line with the Dubai Inclusive Education Policy Framework (2017), SISD is committed to providing inclusive education that is reflected in the everyday life of our school community. We welcome students of determination and give them access to appropriate provision, resources and curricular options while ensuring all students have access to quality instruction, intervention and support.

An inspiring, inclusive and challenging learning environment

The mission of SISD is to provide an inspiring, inclusive and challenging learning environment for all our students while celebrating academic excellence. In line with the Dubai Inclusive Education Policy Framework (2017), we are committed to educating all students, including students of determination experiencing special education needs and disabilities (SEND) in a common learning environment. We fully support all students, including those with additional needs and/or talented and gifted to become successful, global minded, enthusiastic lifelong learners who will confidently take advantage of future opportunities and help make a difference in this world.

At SISD we ensure:

- Students are not refused admission based only on their experience of SEND
- All applicants have the right to sit admission assessment tests
- All applicants are fairly assessed
- Collaboration between parents and previous schools to ensure a successful transition
- Provisions will be made to ensure barriers are reduced or removed during the assessment for applicants experiencing SEND. Access arrangements will be made based on the student's usual way of working
- Students who experience SEND will receive sibling priority subject to availability of spaces
- Students who experience SEND will be provided with appropriate levels of support, accommodations and curricular modifications in order to access the same educational opportunities as their peers

The Admissions Team will seek the support and advice of the Inclusion Support Team to conduct assessments and determine educational needs for new joiners experiencing SEND. The Inclusion Support Team will use the information gained from learning difficulty diagnostic testing or educational assessments provided to Admissions by the parents at time of application, together with assessment results, to determine the type and level of support appropriate for each student.

Please refer to our Inclusion Policy for full guidance.
