LAMDA

LAMDA APPLICATION

The Lamda Acting Exam learners develop their vocal, physical and interpretive skills while they delve into characters and explore the background of dramatic texts. Alongside producing authentic performances of their chosen scenes, they also gain an understanding of the context and characters within them.

Working through the grades takes learners through the development of clear speaking and character portrayal to an understanding of a playwright's style, the influence of theatre practitioners such as Stanislavski and a sensitive appreciation of subtext.

Learners can take their exam in a solo, duologue or combined format

PILATES

Pilates is a form of exercise that focuses on strengthening one's core muscles to enhance flexibility, balance, and posture. Our SISD Pilates ASA is suitable for all abilities from beginners to intermediate level. It will be a fun and dynamic group class, where students can improve their strength, coordination, and mobility. Pilates is a fantastic exercise to improve focus and overall wellbeing. It is particularly adaptable for those teens that don't enjoy sports and struggle to find a type of exercise they really enjoy doing. It helps to develop flexibility, improve balance, and increase overall body strength and endurance. Pilates is a very safe way to get your children's muscles working well, working with their body weight. The best way to ensure that children and teenagers are safe doing strength exercise is to teach the correct technique and form. This will be a core focus during the ASA.
